

RETAINING WALLS

ROMAN PISA®

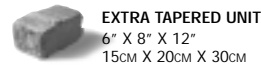

The unique antiqued or distressed appearance of Roman Pisa® gives a natural, rugged look popular in current landscape design. As with all Unilock® retaining wall systems the modular units interlock with a built-in setback that automatically forms the correct slope. Roman Pisa® is also a versatile retaining wall system which allow for the creation of straight or curved walls, planters and steps.

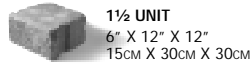

split & tumbled surface

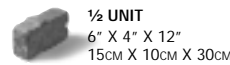

STANDARD UNIT
6" X 8" X 12"
15cm X 20cm X 30cm

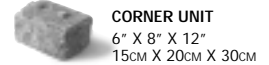

EXTRA TAPERED UNIT
6" X 8" X 12"
15cm X 20cm X 30cm

1½ UNIT
